METALLIC SIGHTS RELOADING AND BULLET CASTING EQUIPMENT SHOTGUN CHOKES

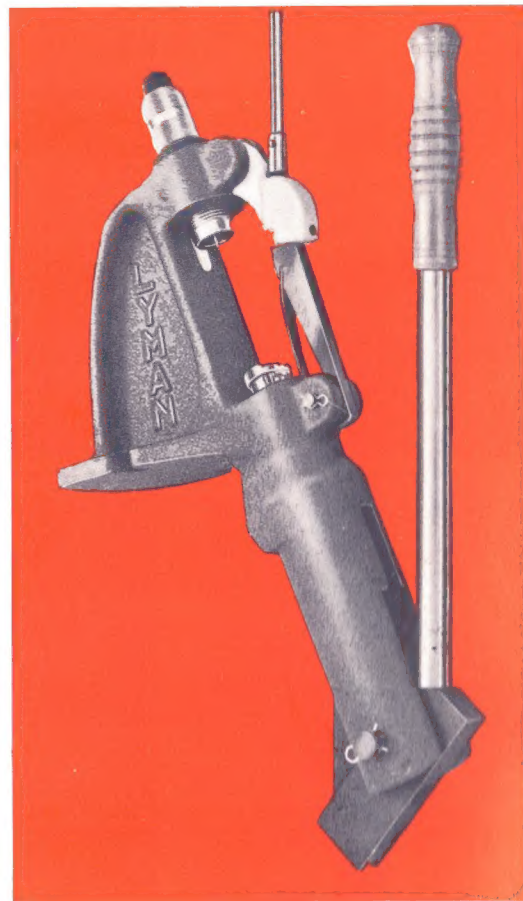

Lyman RELOADING TOOLS

The SPARTAN C-PRESS

This rugged massive, 11 lb heavy-duty iron frame press will provide years of service at a real economy price. The Spartan press reloads all rifle and pistol cases quickly, accurately and easily. Its powerful toggle-link mechanism multiplies the force applied to the handle 25 times and takes the hard work out of full length resizing and case forming. The Spartan reflects strength and quality throughout and gives you value plus at a sensational low price.

- Uses Lyman All American (standard 7/8" x 14") dies
- Simple changeover to either up or down stroke

The SPAR-T TURRET PRESS

The Lyman Spar-T Press combines the maximum speed of turret loading with the operating ease, and strength, of the ever popular C Frame Press. It's massive frame and 6 station Turret are ruggedly constructed of high silicone, iron-steel castings (not aluminum alloy). It's new VertiLock Turret is firmly secured to the frame by a heavy duty 3/4" steel stud. Positive stop, audible click action insures fool-proof cartridge to die alignment and rapid operation. Uses standard 7/8" x 14 dies.

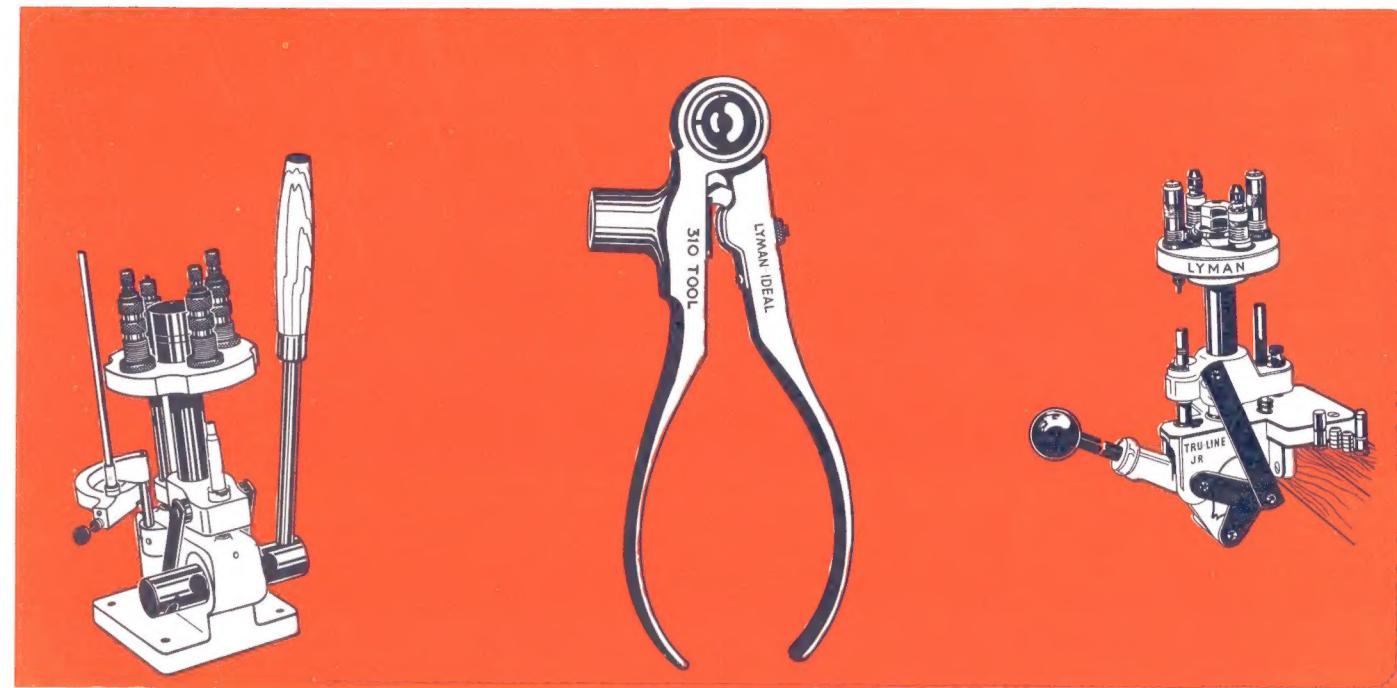

- Powerful toggle link leverage (25 to 1) • UP or DOWN STROKE operation. • Alignment ramp positions Shell Holder at top of stroke. • Uses standard Spartan accessories.

Spar-T Press w/ram & Priming Arm	\$55.00
Spartan Press w/ram & Priming Arm	\$28.00
"X" Shell Holder Head	\$ 3.50
Automatic Primer Feed (Specify Spartan or Spar-T)	\$10.20

ALL AMERICAN 7/8" x 14 DIES	
Standard Die Sets:	
2 die Rifle	\$16.50

T Priming Punch TL Jr., AA Turret	\$ 2.20

IDEAL NO. 310 TOOL performs reloading operations on metallic pistol or rifle cartridges with Ideal dies. This low cost portable tool is a favorite among smaller quantity reloaders, and those who desire a complete reloading outfit that is compact and handy for use at the rifle range or a hunting trip. No. 310 Tool handles are equipped with an adjustable extract or hook so that many types of rimmed or rimless cases can be processed in the same handles.

310 Tool Comp	\$26.00
310 Handles, Large or Small	\$ 8.00
310 Die Set	\$18.50
A Adapter die	\$ 1.70
C Priming Chamber	\$ 3.70
E Double Adjustable ch and seating screw	\$ 5.30
F Expanding chamber & Plug	\$ 3.30
O Muzzle resizer & decapping rod	\$ 6.00

DECAPPING PINS	
Fit All Ideal, Tru-line, All-American Dies	
Package of 10	\$1.50

IDEAL TRU-LINE JR. bench reloading press produces accurate and reliable ammunition with a minimum of effort and time. It uses any standard Lyman Ideal dies, with the exception of the No. 310 Tool priming chamber. In place of this the priming punch and shell holder are used. Once the dies have been placed in proper position, hundreds of cases can be processed without changing the dies. The #55 Powder Measure can be mounted in turret along with dies.

TRU-LINE JR.	
Tru Line Jr. Press (less dies)	\$30.00

TRU-LINE JUNIOR DIES	
2 Die Rifle set K&E or S&E	\$12.00
for following cal: 218 Bee, 22 Hornet, 22 K Hornet, 222 Rem, 222 Rem Mag, 223 Rem, 25/20, 256 Win	
3 Die Rifle Set O, F, E	\$13.50
for following cal: 33 Win, 35 Win, 45/70, 45/90	
2 Die Rifle Die Set S & E	\$12.00
for all other cal.	
3 Die Set for all Pistol R, E & F	\$13.50
— cartridges and following rifle 30/M1, 32/20, 38/40, 44/40	
E Seating and Crimping	\$5.30
F Expanding ch & Plug	\$3.30
S Neck resizing, decapping & expanding	\$7.35
R Full length resizing and decapping	\$5.00
K Full length resizing, decapping and expanding	\$7.80
O Neck resizing and dec.	\$6.00

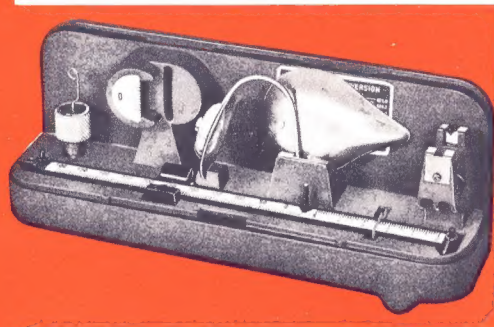

Lyman RELOADING ACCESSORIES

THE "D-5" LYMAN OHAUS SCALE

- 505 grain capacity
- One tenth of a grain sensitivity
- Beam calibrations, 500 x 5 grains, 5 x 0.1 grain
- Hardened steel pivots
- High polished, free floating genuine AGATE bearings
- Aluminum pan and bow
- Zinc, die cast base with corrosive resistant paint finish
- Brass, nickel plated leveling screws
- Magnetic damping supplied by Alnico V Magnet

Only **\$23.50**

THE M-5 LYMAN OHAUS SCALE

M5 OHAUS PORT-A-WEIGH

Magnetic damper — speeds weighing by minimizing beam oscillations. No oil well to become clogged or to spill 1000 grain capacity allows user to weigh large shells. Deep dish pan with pouring spout. Leveling screw in base. Almanox bearings retain accuracy for life of scale. Self contained carrying case — Easy portability can be used anywhere. **\$32.50**

IDEAL NO. 55 POWDER MEASURE has precision adjustments for measuring desired powder charge accurately. Handles all commercial powders, both black and smokeless, and transparent chamber shows powder level. Drop tube is threaded to allow mounting the measure in the Tru Line Jr. turret or other presses with 7/8" x 14 adapter. **\$26.50**

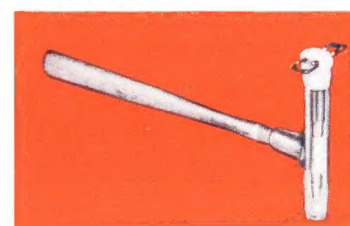

Extra Drop Tubes — Large or small **\$1.50**

FULL LENGTH HAND RESIZER

Full length resizes cartridges restoring expended fixed cartridges to original dimensions. Can be used manually or installed in any workshop vice. (Shown in cutaway view) **\$6.00**

INERTIA BULLET PULLER

Quickly and easily removes bullets from cartridges. Price **\$12.95**

POWDER FUNNEL

This clear plastic powder funnel is designed to fill cases from 22 Hornet through 4570 without inserts or adjustments. Price **\$1.20**

SIZE EZY LUBRICANT

Sizing lubricant in convenient tube packages. Lubricant is applied lightly to cases before resizing. Price **\$1.25 per tube**

ADJUSTABLE POWDER AND SHOT DIPPER

For measuring bulk smokeless and black powder (in grains) as well as lead and copper sized shot (in ounces) **\$3.50**

PRIMER POCKET REAMER

Cleans and removes rough metal edges from a primer pocket. This tool is a must for military type primers. Order correct size (large or small — see priming punch size in cartridge table on page 21) **\$4.00**

SHELL CHAMFERING REAMER

Tapers case mouth for easier bullet seating. One size adapts to all cartridges. **\$5.00**

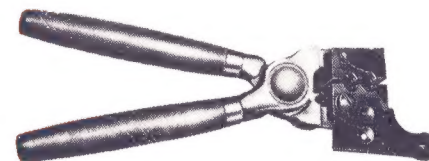

Lyman BULLET CASTING EQUIPMENT

NO. 45 BULLET LUBRICATOR AND SIZER Its powerful leverage sizes the bullet, forces lubricant under pressure into the bullet grooves, and will seat gas checks, if required — all in one rapid, accurate operation. Adaptable to all bullets by changing bullet sizing die sets. Die set consists of top punch die "G", bullet sizing die "H", and bottom punch die "I". No other press offers comparable production capacity at a comparable price. Use with Ideal Bullet Lubricant.

Price:

No. 45 Bullet Lubricator and Sizer only (less dies) **\$28.00**
One set of "G", "H", and "I" bullet sizing dies (specify cast bullet number and required sized diameter) **9.75**

IDEAL SINGLE DOUBLE and 4 CAVITY BULLET MOULDS are strong lightweight cool and easy to handle. Mould blocks for hundreds of different bullets are available. Precision machining and finishing to closest tolerances allow bullets that are uniformly perfect. The Double Cavity Mould casts two bullets at each pouring — the Four Cavity is ideal for fast production.

Single Cavity Block Only	\$11.50
Hollow Point or Hollow Base	20.00
Single Cavity Handles	6.00
Double Cavity Block Only	18.00
Double Cavity Handles	6.00
Four Cavity Blocks Only	24.75
Four Cavity Handles	6.00

Note — Double Cavity and Four Cavity not available for Hollow Base or Hollow Point Bullets.

BULLET SIZING CHAMBER AND PLUG For use with the 310 reloading tool. Reduces cast bullet diameter as required for use. Available in the following bullet diameters:

223	224	225	226	228	244	245	257	258	263
266	278	280	285	287	299	301	308	309	311
312	313	315	320	321	322	323	338	350	356
357	358	359	360	366	386	400	401	403	410
412	424	427	428	429	430	431	448	450	451
452	454	456	457	509	512	515			

Price:

Bullet Sizing Chamber and Plug (specify bullet number and required sized diameter) **\$5.00**

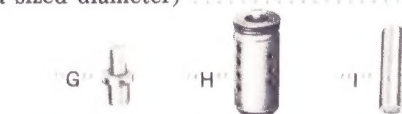

LEAD POT AND HOLDER

Cast iron pot and holder for melting lead alloy using any source of heat. Pot capacity is 10 pounds of alloy. Holder keeps pot secure and level, prevents lead from splashing on stove or burner.

Price
Lead Pot **\$4.00**
Holder **\$3.00**

LEAD DIPPER **\$3.00**

G, H, I DIES For No. 45 Bullet Lubricator and Sizer. Consists of top punch die "G" sizing die "H" and bottom punch die "I". Available in the following bullet diameters:

222	223	224	225	226	228	243	244	245	258
259	263	264	265	277	278	280	284	285	287
299	301	308	309	310	311	312	313	314	315
316	318	319	320	321	322	323	325	338	340
348	350	352	354	355	356	357	358	359	360
366	375	377	378	379	380	386	400	401	403
406	410	412	419	424	425	427	428	429	430
431	434	439	446	450	451	552	454	456	457
459	509	512	515	(580 Lub only)					

Price:

Die "G" **\$2.50** Dies "H" & "I" **\$7.25**

Note: Specify cast bullet number and required sized diameter when ordering "G", "H", and "I" dies.

GAS CHECKS Fitted to the base of cast bullets, gas checks — gilding metal caps — protect bullet bases from hot powder gases in the barrel, permitting higher breech pressures and velocities. Only Lyman gas checks should be used with Lyman cast bullets. Easily seated during the bullet sizing operation with Lyman Equipment State Caliber.

Price 22 cal thru 38 **\$6.30 per M**
Price 44 and 45 cal **8.00 per M**

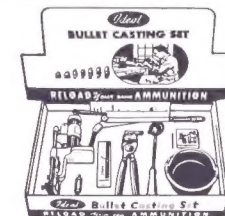

IDEAL BULLET LUBRICANT

Special grease developed especially for use as a cast bullet lubricant. One stick lubricates 2500 small or 500 large bullets.

Price:

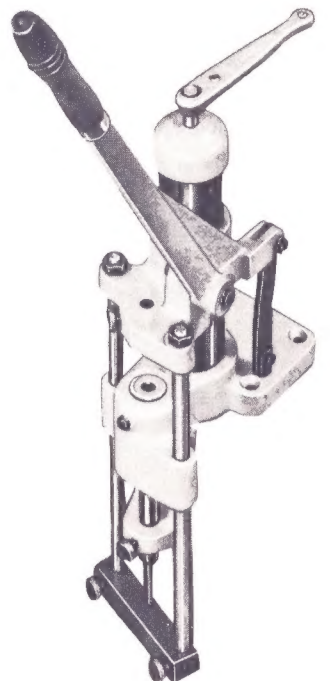

Ideal Bullet Lubricant **\$1.25**

Highest Quality Graphite Lubricant **\$1.25**

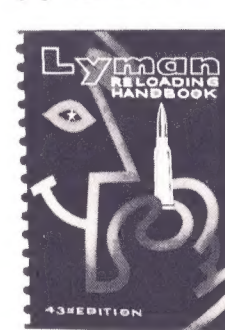

BULLET CASTING SET has everything for casting and preparing lead alloy bullets for low cost accurate cartridges. A wide choice of Ideal bullet designs is available for any type of shooting.

The Bullet Casting Set includes an Ideal No. 45 Bullet Lubricator and Sizer with Sizing dies for one bullet style, a Single Cavity Bullet Mould for any solid base or point Ideal Bullet design desired, a Lead Pot, Lead Dipper, 3 lbs. of Bullet Metal, and Gas Checks when required. **\$65.00**

NEW!!

LYMAN 44 RELOADING HAND BOOK with ten big color sections blankets every phase of shooting. It's easy to learn how to reload your own custom ammunition and save money. Two hundred pages of fascinating facts and data on reloading ammunition for rifles, pistols, shotguns, making bullets, muzzle loading, international shooting. The bible for hunters and target shooters!

Lyman Reloading Hand Book No. 44 (packed in dozen lots with display) **\$4.50**

LYMAN HAND BOOK OF CAST BULLETS is a must for every serious shooter! Traces the fascinating history of bullets. Presents the most complete data and facts ever assembled on how to cast bullets for every need. You'll discover how you can make your own bullets at a fraction of normal cost that outperform anything you can buy! **\$3.50**

Lyman RELOADING DIES

ALL-AMERICAN TRU-LINE JR. 310

The listing below shows the popular calibers available in either All American, Tru Line or 310 Dies. For less popular calibers, not listed, write for information. Asterisk preceding the caliber indicates that reloading dies for this cartridge are available in 3 Die Sets only.

NEW IMPROVED ALL-AMERICAN DIE SETS

All American Dies are designed for use with the Lyman Spartan, Spar T, AA Turret, and all other reloading presses having 7/8" x 14 thread die stations. They are carefully constructed of high grade "first quality" steel. They are polished to a mirror smooth interior finish and hardened to produce a finished, sized cartridge case which will chamber freely in any standard firearm.

STANDARD

Lyman SHOTGUN CHOKES

LymanCHOKE®

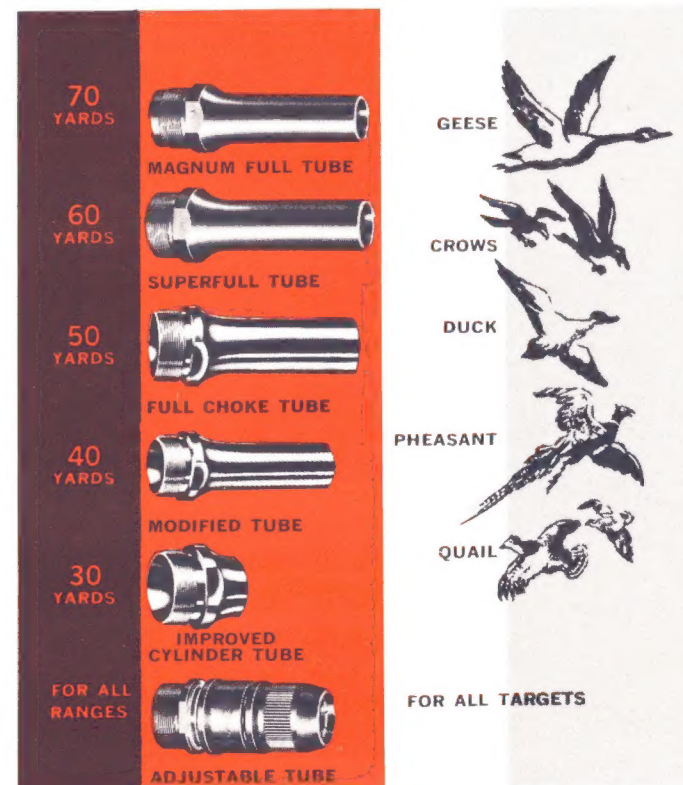

CUTTS COMPENSATOR

The Cutts Compensator consists of three basic parts: the adapter, the expansion chamber, and the choke tube. Compensator tubes provide the chokes needed for full range pattern control. The Cutts reduces recoil, and lessens abuse to the shooter. Choke tubes are available for every type of shooting — from skeet, and those close in, upland targets such as grouse and woodcock to long passing shots at waterfowl. These tubes are pocket size, light, very easy to change. The Cutts turns any single barrel pump or autoloader into a truly versatile weapon. With a Cutts, your patterns are just right for the range, just right for the target!

Price:

Cutts Compensator complete with single choke tube of your choice, adapter and wrench	\$24.60
Cutts Compensator with adjustable tube	34.50
Single pattern tubes	4.95
Adjustable tube	14.85
Factory installation (transportation extra)	7.00

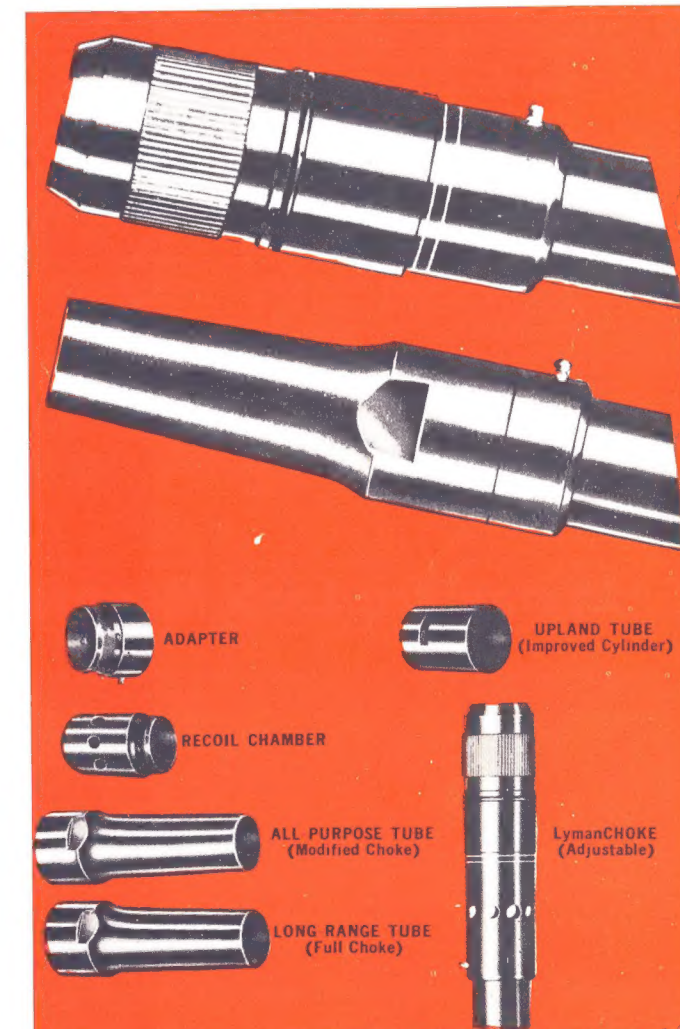

BUCKSHOT & SLUGS USE IMPROVED CYLINDER

Check the chart above for the Cutts Compensator selections available in the gauge of your gun. Only a steel compensator can be installed on 410 gauge and 28 gauge Remington Model 11 48 shotguns. Special installation procedures have been developed for the Winchester Model 59.

With a Lyman Choke you can get rigid pattern control, lower recoil, and the quick change versatility that adapts one shotgun to all your shotshell shooting needs. Built to last for a lifetime of good shooting, the Lyman Choke provides the shooter with many of the outstanding features and versatility of the Cutts Compensator at a lower price.

Price:

LYMAN CHOKE TUBE OF YOUR CHOICE COMPLETE	
With Adapter less Recoil Chamber	\$ 7.95

Meet the complete family of Lyman All-American hunting scopes

One or more of these fine scopes is made to-order for you — your rifle, your kind of shooting. On the preceding pages you have seen why each scope is more than worth the extra price it commands. Think of it in terms of the shot of a lifetime — and a lifetime of shooting.

Select your scope on the basis of power, or magnification. The lower powers will give you widest fields of view, excellent for snapshots of running game or deer stalking in dense woods. The higher powers with their narrow fields come into their own for long-range big-game hunting and varmint shooting in particular.

There is no hard-and-fast rule when it comes to scope power. Four power scopes are generally considered best for all-around hunting, but many shooters prefer the panoramic view and easier holding of the lower powers. And other shooters will swear by the superb accuracy they derive from the high magnification of their scopes — even though the range is moderate and the game fair-sized.

The scopes shown here are matched to typical shooting situations: you, the shooter, know what's best for you!

Lyman All American 2 1/2X... for big game, close in brush country where wide field-of-view (44°) at 100 yards permits easy "off hand" shots at fast moving targets.

Lyman All American 3X... steps up magnification from 2 1/2X, still offers 36° field of view at 100 yards, fast sighting for running game.

Lyman All American 6X... preferred for forest and plains shooting at big game. Ideal for distances of 75 - 300 yards and beyond, most often selected as "all round" sight.

Lyman All American 6X... perfect for big game at long range, small game and varmints to 300 yds., and where most shooting is done from rest or prone.

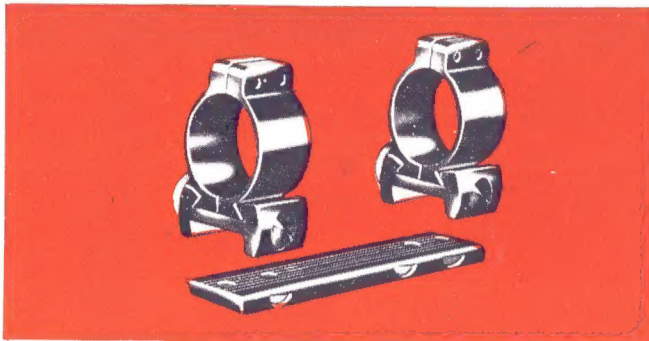

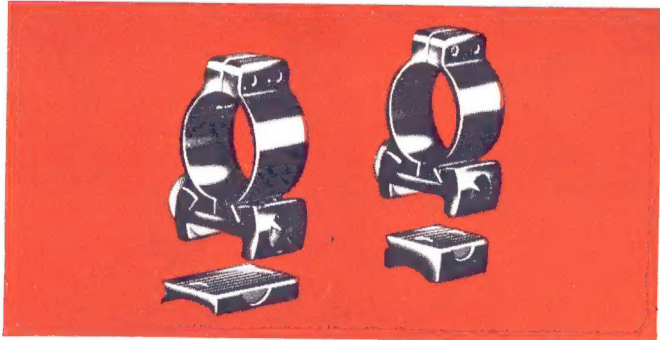

Lyman All American 8 and 10X scopes... strictly long range shooting, finest for varmints like crows, woodchucks, predators and other small animals where extremely accurate, pinpoint shooting is an absolute requirement.

8x \$118.00
10x \$120.00
Add \$10 for Dot Reticle

Lyman Tru-Lock Mounts

- Quickly Removable — coin slotted screws clamp to base dovetails
- Close Fitting — mounts low to the receiver, doesn't interfere with metallic sights line of sight
- Accurate — holds zero settings
- Rugged — Tough alloy, light in weight
- Popular Sizes — 1", 1 023" (26 mm), 7/8" (and 22 mm), 3/4", bases for over 40 popular hi power rifles
- Guaranteed — Lyman backs these mounts for quality and dependability

Mounts Complete	\$13.50

LYMAN HAZE FILTER

The new Lyman Haze Filter was designed to help overcome poor hunting conditions, such as haze, mist, shade, etc. Impairing Target definition. Literally it provides the hunter with a "pocketful of sunlight" to slip on the eyepiece of his scope.

Packaged conveniently in pocket size plastic boxes and are made in four sizes to fit all popular scopes.

Each \$3.95

STORM QUEEN LENS CAPS FOR LYMAN SCOPES

Protect lenses against damage. Specify scope power and model when ordering.

SIGHTING DISCS

Standard target disc 5/8" x 040" Standard hunting disc 1/2" x 093" These are used except when sight requires smaller O.D. Other discs available 5/16", 3/8", 1/2", 5/8" with long shanks 1" with short shank only. Please specify. **\$1.70**
648 Tap **\$1.50**
31 Drill **\$1.00**

NO 12 SLOT BANKS

These Blanks fill the standard 3/8" rear bar dovetail when a receiver sight is installed. They are also available for front sight dovetails and ramps when a scope is being used. Three lengths are available all fit standard 3/8" dovetails.

No 12S (3/8" x 5/8" long) for standard rear barrel slots
No 12SS (3/8" x 9/16" long) for standard front sight slots and some rear slots in narrow barrels
No 12SF (3/8" x 11/32" long) this blank has square ends and is intended for use in ramps

Price (all sizes) **\$1.00**

17A TARGET FRONTS

Teamed with a Lyman receiver sight, these low silhouette front sights provide precise X ring accuracy on the range. Designed for use with dovetail slot mounting, they are supplied with seven interchangeable inserts (see descriptions below) that are locked into place with a threaded cap.

Price
Series 17A Target Front Sight Complete with Inserts **\$5.90**

SIGHT HEIGHT*

17AHB narrow base	360"	17AUG	532"

AK = 185"	K = 300"	A = 167"	D = 415"
BK = 260"	KK = 370"	B = 225"	E = 475"
		C = 315"	

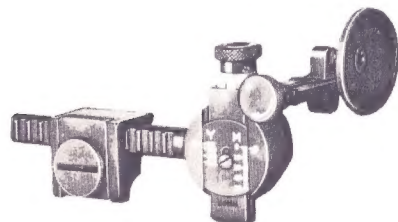

INSERTS FOR USE WITH 17A AND 77 SIGHTS

Set includes: two post type inserts (100" and 050" wide), five aperture type inserts (1 plastic 120" hole insert and four steel inserts with 070", 093", 110" and 120" holes)

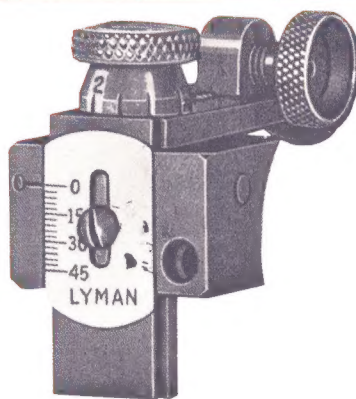

Price: Complete Set of Inserts for 17A or 77 Sights **\$1.85**

LYMAN NO. 524 is precision made with positive windage and elevation adjustments. Telescopic line of sight **\$28.50**

TARGET DISCS for NO. 524 **\$2.10**

METALLIC SIGHTS

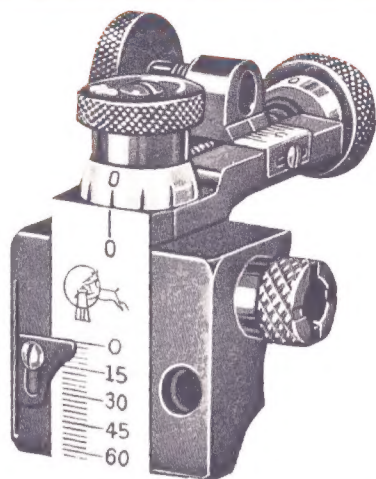

SERIES 57

Designed for bolt action and other round receiver rifles.

Identical in features and price, Lyman 57's and 66's offer many of the advantages of the Lyman 48 at a lower price. They hug the receiver to provide the lowest line of sight and the least protrusion. Series 57 and 66 sights are a favorite of shooters who use iron sights and a scope alternately. Their strength, compactness, and finish make them a "must" for your favorite rifle. These Series 57 and Series 66 sights can be fitted on a wide range of different rifles. See Sight Selection Chart on page 13.

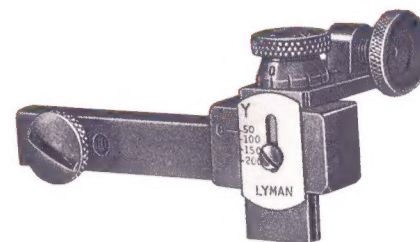

Price: Series 57 and 66 Receiver Sight **\$12.75**

SERIES 66

Designed for autoloaders, pumps and lever actions with flat receivers.

FEATURES: Audible click 1/4 minute micrometer adjustments for elevation and windage. Elevation slide is scribed in 3 minute increments. Quick release allows slide to be removed with a press of the release button. Elevation stop screw permits instantaneous return to zero. T-slotted slide base construction provides a sturdy parallel fit for shooting accuracy. Choice of Stayset or knurled Target knob.

NO. 60 SIGHTS — Brand new precision micrometer rear sights for use on popular medium weight, small bore target rifles. Feature positive position windage and elevation screws with precision 1/4 minute adjustments — and "Staytight" fit of extension arm and sight base. Quick detachable extension rear sight permits choice of 3 positions of eye relief. **\$14.75**

NO. 55RWS is a low priced sight for popular 22 caliber bolt action and other hunting rifles. It has strength and compactness to meet rigorous hunting requirements. **\$7.00**

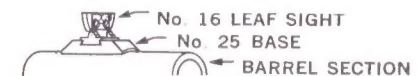

FRONT & REAR

NO 16 MIDDLE SIGHT can be installed on barrel without interfering with scope mounting and serves as a primary rear sight and as an auxiliary sight for twilight shooting, or to check the alignment of receiver and front sight. Folds tight to barrel when not in use.
16A 400 High elevates to 500 **\$4.50**
16B 345 High elevates to 445 **\$4.50**
16C 500 High elevates to 600 **\$4.50**

NO. 25 BASES

Permit the installation of dovetail rear sights such as Lyman 16 leaf sight on rifles that do not have dovetail cut in barrel. They also supply a higher line of sight when needed. The No 25 Base is mounted by drilling and tapping the barrel for two 6-48 screws. Screws are supplied with base.

Price No 25 Base **\$2.50**

STANDARD BASES

	HEIGHT from top of BARREL to BOTTOM of DOVETAIL	BARREL RADIUS
25A Base (Low)	025—	875 or larger
25C Base (High)	125—	875 or larger

SPECIAL BASES

25B Base Fits factory screw holes on Remington 740, 742, 760, 725 and replaces factory rear	125—	875 or larger
25D Base For small diameter barrels. Note Radius	025—	For Barrels under 875 dia

NO. 18 SCREW ON RAMPS are rugged bases for standard width ramp front sights and are designed to be fastened to the barrel with 8-40 screws. Combinations from 340" to 012" from top of barrel to top of head are available.

RAMPS — 18E High Ramp	— Height 350
18C Med Ramp	— Height 250
18A Low Ramp	— Height 100

No 18 — Ramp only **\$4.70**
No 18 — Ramp complete with sight **\$7.00**

BAND RAMP AND FRONT SIGHTS

Converts military rifles into accurate performers for range or field shooting. Streamlined shape with the tail of the ramp in close, attractive contact with the barrel. Comes furnished with Lyman bead sight in position under the detachable hood. Choice of ivory or gold bead. Ramp diameters available: 550, 595, 605, 610, 620, 630, 640 inches.

Ramp Front Sight complete **\$12.30**
Ramp only **9.40**
Hood only **50**
Front sight only **2.60**

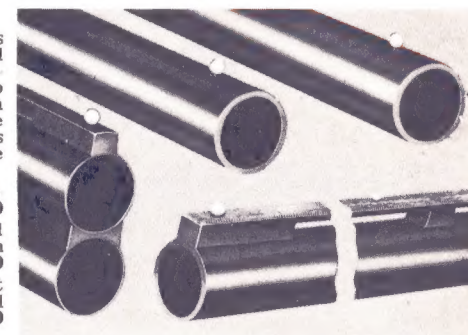

SHOTGUN SIGHTS

Lyman shotgun sights are the finest available for all shotguns. Equipped with oversized ivory beads that give perfect definition on either bright or dull days, they are easy to see under any light conditions. They quickly catch your eye on fast upland targets and point out the lead on long passing shots. Lyman shotgun sights are available with WHITE or RED bead, and can be fitted to your gun in minutes.

No 10 Front Sight (Press Fit) for use on double barrel, or ribbed single barrel guns. Sight only **\$1.30**

No 10D Front Sight (Screw Fit) for use on non ribbed single barrel guns. These sights are supplied with a wrench. Sight & Wrench only **\$2.50**

No 11 Middle Sight (Press Fit) This small middle sight is intended for use on double barrel and ribbed single barrel guns. Sight only **\$1.30**

SERIES 53

When you use your shotgun for slug shooting, you need a rear sight that provides quick, accurate shooting. The Series 53 shotgun slug sight turns your birdgun into a deadly deer rifle at 100 yards. Series 53 sights can be fitted to most slug shooting shotguns. See Sight Selection Chart.

• Simple, precise windage and elevation adjustments.
• Mounts low on the receiver.
• Detaches quickly for wing shooting.

Price: Series 53 Receiver Sight **\$6.00**

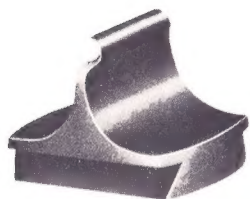

Here's a 50 yard group shot with a 12 gauge pump shotgun equipped with a series 53 shotgun slug sight.

Lyman EASY LOADER SHOTSHELL CONVERSION KITS

Converting your Easy Shotshell Reloader from one gauge, or crimp, to another is accomplished using COMBINATIONS of the four conversion Units A, B, C and D.

This unique idea affords the shooter with a high degree of versatility at a very low cost. It allows him to purchase the specific parts he requires without duplication.

Kit A is the basic gauge conversion Unit. This kit is always necessary when you change gauge. You must also have either B, C and/or D. These Kits contain parts to convert the crimping die to different types of crimp. When ordering conversion Kits, check the chart below for the specific kits you require.

	KIT A —	Basic gauge conversion unit (crimping equipment not included), always required when converting to another gauge. Available in 10, 12, 16, 20, 28 or 410 gauge. Specify gauge when ordering \$12 00
	KIT B —	Fold crimping unit, which contains parts to convert the fold crimping die to another gauge. Available in 12, 16, 20 or 28 gauge. Specify gauge when ordering \$5 00
	KIT C —	Roll crimp activator unit which fits all gauges. This unit is required to convert from fold to roll crimping \$9 50
	KIT D —	Roll crimping unit, which contains parts to convert the roll crimping die to another gauge. Available in 10, 12, 16, 20 or 410 gauge. Specify gauge when ordering \$9 50

When ordering kits, check the chart below for the specific kits you require. ALWAYS SPECIFY KIT LETTER AND GAUGE.

Extra Shot and Powder Bushings **\$1 50**

Lyman "Easy" Loader

SHOTSHELL PRESS

CHECK AND COMPARE:

- Loads all gauges — 10, 12, 16, 20, 28, 410.
- Loads all shell case lengths — 3½" to 2½"
- Loads all shotshell cases — hi brass, lo brass, all brass, zinc, paper, plastic including the new Winchester Western and Remington Peters plastic cases
- Makes all crimp styles — fold, roll, 6 fold, 8 fold, bevel crimp, slug roll
- Makes all loads — from 10 ga Mag to 410 skeet, to rifled slug or buckshot
- High production — 15 seconds a shell — 240 an hour
- Fool proof powder and shot measure — with new R P V C non clouding reservoirs that hold a pound of powder and 5 lbs of shot — plus quick change bushings
- Trouble free accessories — simple, easy to change gauge conversion, etc
- Unique self aligning crimp starter — a must for new plastic cases
- So, so very easy to use — 4 station in line press design makes "Easy" so simple to operate it can be done blindfolded

Press complete to load any length fired paper cases, fold type crimp, 12, 16, 20 gauge —

Suggested Canadian List
10 and 410 gauge units — slightly higher
